eMISSIONS: An Environmental, Audible, and Expressive Exploration in Digital Visual Media

Katie Hauser, Associate Professor, Art & Art History

Research on George Tooker at the Archives of American Art in Washington, D.C.

Mark Hofmann, Professor Mathematics and Computer Science

Astronomical & Navigational Aids for Determining Longitude & Latitude

Penny Jolly, Professor, Art & Art History

European Travel for "Pubics and Privates: Body Hair in Late Medieval Art"

Karen K... Associate Professor, M...

Faculty Development Grant Recipients (continued)

Behavioral Assessment of Transgenic Mice Modelling Schizophrenia

Jay Rogoff, Lecturer, English

Travel Support for the Creation of Poems

Research on Cambridge Economists & Keynes's Papers

Patricia Rubio, Professor, Foreign Languages & Literatures

Jose Donoso el Escriba curioso (Jose Donoso, the Curious Scribe)

Linda Simon, Professor, English

Theodora Bosanquet and Her Literary Circles

Shirley Smith, Associate Professor, Foreign Languages & Literatures

The Shape of Italian Colonialism in Tientsin (China)

Daniel Swift, Assistant Professor, English

2008 Summer Faculty/Student Research (continued)

David Domozych, Professor, Biology

Phylogenetic Studies of the Diatom Genus Ditylis in the Phaeocystis Group

Phylogenetic Studies of the Diatom Genus Ditylis in the Phaeocystis Group

2008 Summer Faculty/Student Research (continued)

**Kelly Mills-Dick, Lecturer, Sociology, Anthropology & Social Work
Jessica Hull '09**

Project: "Homelessness in Saratoga County: Assessing the Problem and Available Services"

Thomas O'Connell, Assistant Professor, Math & Computer Science

Weston Jossey '08

Project: "Extended Algorithms Research and Software Development"

Flip Phillips, Associate Professor, Psychology

Josh Lesperance, Visiting Assistant Professor, Math & Computer Science

Kubra Komek '10

Project: "Metrics for Comparing 3D Shape"

Bernard Possidente, Professor, Biology

Lauren Friedman '09

Project: "A Neurogenetic Study of Lead Toxicity in a Fruit Fly Model for Alzheimer's Disease"

Thomas Reynolds, Assistant Professor, Exercise Science

Thomas Reynolds, Assistant Professor, Exercise Science

Jennifer Pienaarbrink '09

2008 Summer Faculty/Student Research (continued)

Garrett Wilson, Lecturer, Theatre

Jenna Carino '09

Project: "Representation of Theatrical Scenic Designs in the Museum or Gallery"

Scholarship

Jennifer Bonner, Assistant Professor, Biology

Michael Letko '11

Project: "Analysis of the Function and Distribution of Robo2 and Robo3, which are Essential for Spinal Neuron Navigation"

Sylvia Franke, Assistant Professor, Biology

Catherine Baranowski '11

Project: "Copper – Silver Cross Resistance in Escherichia Coli"

Mary Crone-Odekon, Associate Professor, Physics

Paul Russell '11

Project: "The Loss of Heavy Elements in Galactic Clusters from the Age of the Universe"

Legacy Fast ALFA Survey"

Thomas Reynolds, Assistant Professor, Exercise Science

Maria DiSanto-Rose '11

Project: "The Effect of Aging on PKB/FOXO Signaling and Skeletal Muscle Proteolysis"
