

FACULTY MEETING

October 4, 2013

MOTION

In order to update our “Division of Disciplines”, the Faculty Executive Committee moves that the following changes be made to the Faculty Handbook:

- add: Arts Administration to “Pre-Professionals”,
- add: Asian Studies to “Humanities”,
- add: International Affairs to “Social Sciences”,
- add: Neuroscience to “Natural Sciences”.

Rationale: We regularly use the Division of Disciplines when the Faculty seeks to establish broad and equitable representation of its body. As new lines went to the above programs, we have to make sure that the new programs are represented in the Division of Disciplines so as to give the faculty involved full governance opportunities and visibility.
