

Application for Receipt of Honors within the Neuroscience Major

To be eligible for honors in Neuroscience, neuroscience majors must meet the GPA requirements set by the College and research requirements set by the program. Specifically, students must have the following:

- 1) Cumulative GPA of 3.500 or higher for work in the major, and a cumulative GPA of 3.000 or higher for all work at Skidmore to credit, 300

and either at Skidmore or at another institution will be

experiences are described along with their qualification for

describes the independent research experiences and/or undergraduate that relate to neuroscience. These may have been. Describe the research, and your specific role in the project. Faculty you have worked with, if any. Did you, or will you, present at a scientific conference? Are you, or will you be, an author of a manuscript? (Note: presentation and publication are not required for honors—we're just trying to get a sense of your involvement in

on a separate sheet of paper and submit along with this application, single -spaced (12-pt font).

program

Submission deadline: Withdrawal deadline for the spring semester. Check registrar's website for exact date. In 2022-23, this date is April 13th.
