**WORKPLACE SAFETY**  
 AWARENESS AND COOPERATION

**LETTER FROM THE PRESIDENT**

Our employees and students are our most valuable asset. It is our policy that every person is entitled to a safe and healthful place in which to work and live.

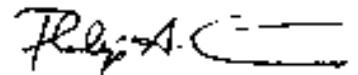

The establishment and maintenance of a safe environment is the shared responsibility between all members of the community. To this end, every reasonable effort will be made in achieving the goal of accident prevention and health preservation.

Our philosophy is oriented toward affirmative control and minimization of risk to the greatest extent possible. We have a basic responsibility to make the safety of employees and students a part of our concern. We will be counting on you to do your part in making our program an effective one.

The success of Skidmore College will depend, in part, on how safely each job is performed. There is no job so important—nor any service so urgent—that we cannot take time to work safely.

Skidmore College will aggressively pursue a plan to minimize pain and suffering of an injured worker, and return him/her to active work duties as soon as possible.

I consider the safety of our campus to be of prime importance, and I expect your full cooperation in making our program effective.

Philip A. Glotzbach  
 Skidmore College President

**A SAFE CAMPUS DEPENDS ON ALL OF US**
